- Focus on guest feedback and store-wide self-assessments
- Collect information and leverage towards better team practices
- Lead in the complete closing of the store for the night
- Carefully count and log cash throughout each shift
- Direct the use and upkeep of the majority of technological aspects in the store
- Interview new potential hires
- Observe State regulated mandates for sanitary preparation of foods
- Maintain a clean and organized 'Front of House'
- Provide a customer-first experience for our guests
- Work to take on more roles and responsibilities

**Projects:**

Personal Portfolio Website [abramepithey.github.io](http://abramepithey.github.io)

- Utilized HTML 5, CSS 3, Bootstrap 4, and jQuery to design & build my own personal website

Terminal Hacker App <https://github.com/abramepithey/TerminalHacker>

- Utilized C# and .NET framework to create a simplistic version of the hacking minigame from the Fallout series of video games

Flopify <https://github.com/m0thm4n/NewSkyDivingBook>

- Team-based ASP.NET web API modeled after a simple music app, with a focus on both API fundamentals and collaboration best-practices
