## OBJECTIVE

I am a driven, passionate developer with an eye for innovation and efficiency looking to utilize my analytical perspective and months of intensive, hands-on learning to develop database-focused software.

## TECHNICAL SKILLS

### Languages:

C#, HTML5, CSS3

### Testing Tools:

Postman, Unit Tests

### Databases:

MS Sql Server, SQLite

### Operating Systems:

UNIX, Windows 10

### Office tools:

MS Office (Word, Excel, Power Point, Outlook)

### Web Technologies:

Entity Framework, ASP.NET, MVC, XML, Webservices, Web APIs

## PROFICIENCIES

- Customer service
- Critical thinking
- Problem Solving
- Organization
- Rapid learning
- Communication
- Leadership
- Results-oriented
- Flexibility
- Responsibility
- Mediation

## EDUCATION

### Eleven Fifty Academy

*February 2020 - August 2020*

Software Development Part-Time Immersive Bootcamp

- Dedicated program to teach from ground zero HTML to deployed ASP.NET MVC project
- Learned website design, RESTful web API structure, and MVC pattern
- Built out a GitHub portfolio showing the growth and progress I made throughout the program
- Gained experience with working in multiple different groups on projects, and in remote work and communication

## EXPERIENCE

### Director of Internal Growth (January 2019 - September 2020)

*Chick-Fil-A Broad Ripple, IN*

Promoted to Manager after serving as a Team Member from January 2019 to December 2019, and then promoted to Director after serving as a Manager in April 2020.

- Had a focus on guest feedback and store-wide self-assessments
- Collected survey information from guests and leveraged towards better team practices
- Created a new growth strategy and put in place a team of 5 people to begin to focus on specific growth areas
- Both assisted and led in a year of over 17% sales growth against the previous year
- Regularly managed and led numerous teams of 18-24 team members

### Lead Cook (Summers 2014-2018)

*Sky Ranch Horn Creek, Westcliffe, CO*

Worked mostly summers as a Lead Cook, with the addition of taking part in a one-year, Biblical work-study program

- Directly led in the production, presentation, and cleanup of all meals for groups of 100-150 guests
- Managed the perfection of repeated processes, and the quick application of new requirements and processes
- Worked in 3 different kitchens with a variety of different teams, and developed a pleasant and effective work environment in every situation
- Assisted management in ordering product, and the inventory of all related items on camp

## PROJECTS

### Charcoal Companion

<https://github.com/abramepithey/CharcoalCompanion>

- Capstone ASP.NET MVC project that showcases a wide variety of front and backend skills and methodologies, including Entity Framework, RESTful architecture, and a push towards a user-managed system

### Flopify

<https://github.com/epalamarevic/Flopify>

- Team-based ASP.NET web API modeled after a simple music app, with a focus on both API fundamentals and collaboration best-practices

### Personal Portfolio Website

[abramepithey.github.io](http://abramepithey.github.io)

- Utilized HTML 5, CSS 3, Bootstrap 4, and jQuery to design & build my own personal website
